

Trees in Four Seasons

Tatting pictures of a tree as it develops from Spring to Summer, Autumn and Winter was the idea of Jean Johnston from Caerleon, South Wales, UK

Her tatting group, plus four or five ladies from Cardiff, spent a few weekends at her house to work on this project. The trees are mounted on white canvas which was painted before the trees were attached.

It was a very enjoyable time with lots of laughter - and cream cakes, when we weren't tatting, of course!
