

Split Rings

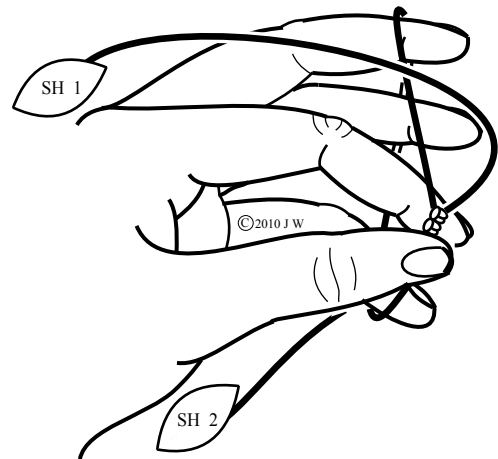

1)

Wind 2 shuttles CTM
SH 1 work 1st half of the ring, 8ds.
Leave the ring on your hand

2)

Drop shuttle 1 over the back of your left hand.
Spread your fingers out so that the thread is
tight round them.

3)

Rotate your hand so that your fingers point up towards
the ceiling with the thread held firmly in place.

This is often referred to the 'dead spider' position.
Pick up shuttle 2 and work from where you started
the ring and work from left to right

**DO NOT TURN/FLIP THE STITCHES ON
THIS SIDE OF THE RING**

Start with the 2nd half of the stitch, as in the diagram.

4)

Move it up close to the stitch on the left.
Work the 1st half of the stitch as in the diagram.
Move it up close to the stitch on the left.

Continue working the 2nd half stitch then the
1st half stitch (this makes one double stitch) for the
number of times required, in this case 8.

Drop shuttle 2 and close the ring using shuttle 1.
